CAREER OBJECTIVE

7+ years in software development experience

Software engineer. Have an experience in web development (front-end and little bit backend) and game development (js) . Have a 4kyu on codewars.com. Main languages is javascript and c++. Also like to learning design and architectural patterns. I hate bored and routine job. Like to learn something new in every tasks

Strong parts:

- I can work with legacy. Filthy legacy
- I can communicate with managers, owners other programmers without thinking that all of them are stupid persons and only I know how to work
- I like experiments and deep dive in frameworks, libs and other project custom solutions
- I can and I like to share knowledge with juniors, trainee or just less experienced front-end colleagues
- My voice is so nasty
- I have a cat

Weak parts:

- This information is only for Artem's business plan owners

Preferred stack:

- Angular (any version)
- Nodejs
